DETAILED ACTION

Allowable Subject Matter

1. Claims 130-142 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record Oberhardt fails to teach or fairly suggest that the means for inducing a negative pressure differential on the sample directs the sample through the first channel, into the first chamber, to the test surface, and thereafter removes an unreacted portion of the sample from the test surface, through the second channel, and into the second chamber; a second indicator corresponding to a second piston position that indicates the samples has reached the second chamber; and a third indicator corresponding to a third piston position that indicates the sample has reached the third chamber, in combination with the remaining features and elements of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
